📍 Pimpri Chinchwad,
Pune

[Hard Skills](#)

- Languages :
 - C
 - C++
 - Java SE And Java EE
 - C#
 - Dart
 - JS.
- **ASP .NET CORE 8 ,Spring & SpringBoot, Angular, Hibernate, ORM, Microservices, Swagger UI (OpenAPI) , Flutter .**
- **Software Design Patterns, OOPS, SOLID Principles.**
- **Frontend : HTML, CSS, JS, TS, Tailwind, Angular.**
- **DataBase**
 - SQL - **MySQL.**
 - NOSQL - **MongoDB, Redis.**
- **Modern Tools : Git, GitHub.**

[Certificates](#)

- Certificate for the Completion of Java Business Application Training [\[Link\]](#)
 - Score: **90.00%** - Spoken Tutorial Project, IIT Bombay.
- Programming using Java - Infosys SpringBoard [\[Link\]](#)

[DSA Profile](#)

- Solved More Than **1000+ DSA** Problems On **GFG + Leetcode** [\[Link\]](#)
- **Institute Rank On GFG : 23** [\[Link\]](#)
 - **1500 +** points
 - Longest Streak : **80+** (POTD)

[Education Background](#)

- **LSB Waje Vidyalaya , Nashik**
 - Class 10
 - Completed in 2019 - 92.80%
- **Atma Malik International School**
 - Class 12 (CBSE)
 - Completed in 2021 - 90%
- **Pimpri Chinchwad College of Engineering**
 - B.Tech in Information Technology
 - CGPA - 8.6

[Projects](#)

- **Electronic Store Backend** [\[code\]](#)
 - Developed a robust backend system for an electronic store application using **Java, Spring, Spring Boot, Hibernate, JPA, and MySQL.**
 - Utilized **Swagger** for **REST API documentation.**
 - Implemented **JWT-Based Authentication and Role-Based Authorization** using **Spring Security**, ensuring secure access to resources based on user roles.
 - Used **Hibernate ORM framework** for streamlining database operations and improving maintainability.
 - Having features such as product addition to cart, cart item deletion, and efficient order placement through dedicated cart and order services.
- **Hospital Management System** [\[Live Link\]](#)[\[code\]](#)
 - Developed a Hospital Management System using **Java Spring Boot, MySQL, Hibernate, Spring Security and Docker** for seamless deployment on **Render.**
 - Implemented appointment management system allowing doctors to **view** and **manage appointments.**
 - Enabled patients to schedule **appointments** and provided visibility into available hospital options.
 - Patients can securely **store** and **access** their **medical history**, create personalized folders, and store prescriptions.
- **Job Portal Backend project Using SpringBoot** [\[code\]](#)
 - Designed and implemented functionalities for job seekers to browse job listings, apply for jobs, and track their application status.
 - Created features for recruiters to post job listings, view applicant profiles, and manage job applications efficiently.
- **Recipe Route Flutter App** | [\[code\]](#) | [\[video\]](#) |
 - Implemented API integration techniques to fetch recipe data from external sources, ensuring a rich and dynamic browsing experience for users.
- **Note Saver App** | [\[code\]](#) | [\[video\]](#) |
 - Designed and developed using **Flutter, Dart, SQLite Database, Flutter Widgets.**
 - Implemented note creation and editing features.
 - Provided User-friendly interface.
- **Weather App** | [\[code\]](#) | [\[video\]](#)
 - Created Weather Vibe, a Flutter-based application using external APIs to provide real-time weather updates and forecasts.
